CINÉ CONCERT

The Georges Méliès series by Les Mélodies de Nirbaak

A ciné concert is what cinema was at its very beginning, at the time when movies were silent. Some musicians were performing live the music composed for these films right in front of the screen together with the audience. Les Mélodies de Nirbaak is a ciné concert and will perform 'The Georges Méliès Series', of four short silent films: *A trip to the Moon*, *Blue Beard*, *Joan of Arc* & *the Kingdom of Fairies*.
